STEPHEN NGARUIYA

P.O BOX 267- 60200 MERU

0794032541 | **stephenngaruiya94@gmail.com**

Personal Details

- Date of Birth: 02/06/2003
- Marital Status: Single
- Nationality: Kenyan

Education

- **Kenya Methodist university** 2022-2025
  BACHELOR'S DEGREE IN COMPUTER INFORMATION SYSTEMS
  Second Class Honours (Lower Division)
- **St John's Nyamagwa Boys High School** 2018-2022
  C+

- **Getembe Primary School** 2010-2017
  321

Career Objective

- To leverage my technical expertise and innovative mindset in computer science, software engineering, and emerging technologies such as AI, to contribute meaningfully to forward-thinking organizations.

Career Purpose

- My purpose is to empower communities and organizations through cutting-edge technological solutions while continuously growing as a principled and competent professional. I am committed to using my knowledge, creativity, and leadership to create tools and systems that improve lives, bridge gaps, and contribute to global progress.

Value Statement

- I uphold the values of **integrity**, **competence**, and **accountability**. I believe that meaningful impact stems from a deep sense of personal responsibility and ethical conduct. I strive to embody professionalism through self-awareness, continuous learning, and the discipline to follow through with excellence and purpose.

Vision

- To become a global leader in technological innovation and education, inspiring the next generation of computer science professionals while advancing practical, scalable solutions that address the world's most pressing social, economic, and environmental challenges.

Mission

- My mission is to integrate hands-on expertise in software development and artificial intelligence with a passion for innovation and research. I aim to foster inclusive, collaborative environments where teams, tools, and mindset can create impactful solutions and drive sustainable progress across industries and communities.

Skills

- Web Development:
- Backend Development
- UX/UI Design
- Research & Strategy
- Testing & Debugging
- Database Management

Languages

- Kiswahili
- English

Certificates

- Networking Devices and Initial Configuration

- CPP - Advanced Programming in C++

- NDG Linux Essentials

- Cybersecurity Essentials

- CPA - Programming Essentials in C++

- Get Connected

Experience

- **MERU TTC**   06/06/2024 – 18/06/2024
  IT SUPPORT OFFICER

  - Provided technical support, troubleshooting hardware/software issues, and ensuring seamless IT operations.
  - Troubleshot issues on device-specific problems, network performance, and internet connectivity.
  - Improved system performance by identifying problems and recommending changes.

- **INFICOM SOFTWARE KE**   18/02/2024 - 02/04/2025
  WEB DEVELOPER

  - Passionate about building sleek, high-performance web applications.
  - Leveraged mastery of HTML, CSS, and JavaScript to build top-quality code for diverse projects.
  - Created Web models and prototypes that included physical, interface, logical, and data models.

- **MERU NATIONAL POLYTECHNIC**   05/05/2025 – 31/07/2025
  ATTACHEE

  - Configured servers to meet functional specifications.
  - Designed and ran hardware or software tests.
  - Identified system data and hardware or software components required to meet user needs.

- **KENYA METHODIST UNIVERSITY**   10/09/2025 – 21/12/2025

  INTERN

  - Provided frontline support to students and staff by resolving LMS, online exam, and virtual learning issues.
  - Delivered orientations, digital literacy training, and continuous assistance for blended/online course activities.
  - Monitored learner engagement, prepared reports, and ensured compliance with DVBL quality standards.

Projects

- **GEARBOX EUROPLACER MOBILE APPLICATION**
  The above project was being developed as part of the learning qualifications for a conferment of degree in computer science. It's a system that allows online operations of daily tasks in the organization.

- **AUTOMATED WAREHOUSE AND FARM**
  It is an AI driven project that offer solution to problems that farmers face on a daily basis like bad weather conditions and security.

- **HOMELINK**
  A real estate and community platform in Kenya designed to connect landlords, hotel owners, and real estate agents with customers and tenants.

- JUARIGHTS
  JuaRights is a civic-tech initiative in response to the ongoing protests and civil unrest in Kenya. The project aims to educate citizens about their rights, improve access to legal and civic information, and empower people to engage meaningfully in governance and social justice.

Interests

- Research
- Innovation
- Technology
